

Arden by dnrock

This is a narrative. It is a work of historical fiction. The operative word in that sentence is fiction. A list of characters is provided (Separate File) as some come and go and the time span may be lengthy between appearances, in the serialized presentation, I thought it might prove useful. Sex between males, males and females, between females, of both contemporaries and intergenerational is common. I am sure, not common enough for some and to common for others. Some of the descriptions are graphic, others not, still others are only statements of happening or just illusions to occurrences. The main characters are male and most of the sex is between them. Most of these characters are bisexual or think of themselves as such.

If the sexual nature is offensive or you are disqualified due to age or location, don't read it. You have been warned. I hope you like what you read and find the characters and their exploits/adventures interesting.

Nifty and I hold the copyright so posting it or making money from it without permission or sharing, is unethical. That said, if you wish to quote reasonable length passages please be kind enough to sight them. You will find a few quotations or only slightly edited passages in some chapters. References are provided in the text.
