A Young Boy's Awakening – Chapter 1

My name is Josh and at age 11 I knew nothing about sex or sexual pleasure. And that was the way my mother wanted it. She is a devout Christian woman. Anything pleasurable she considers sinful. She was sure that the best way to keep me away from sin was to keep me from anything pleasurable and any knowledge of sex.

Mom and my Aunt Lacy went on a weekend retreat with the church. My Uncle John called Dad and asked if we wanted to come over and christen his new swimming pool. Friday night we drove over to their house. I realized when I got there that I managed to walk off and leave my swim suit on the kitchen counter. I thought I wasn't going to get to swim and was in a pretty bad mood.

My uncle John told me not to worry about it that God had given me a perfectly good swim suit and I could use it.

Robbie, my cousin, wanted to know if he could skinny dip too.

John said yeah. We both stood beside the pool and stripped naked.

There was still a little chill in the Spring air and there was steam rising off the heated pool. When Robbie and I were naked we dove in the pool. The shock of swimming naked or skinny dipping as my uncle called it was total.

It is hard to understand why it feels so much different...but it does. It was a totally liberating feeling...almost like being weightless. And then there was the electric feeling as the water washed over my naked penis as I swam underwater. Almost instantly I had a boner...therefore this must be sinful. Despite what I had been taught, you could not have made me get out of that pool at gun point.

I was a little worried about what Robbie would think of my boner.

Robbie is 13 and I am only eleven. I am sure he is going to give me shit about having a boner...cause he give me shit a lot...I don't care. I keep swimming underwater loving the feeling of the water washing over my naked boner.

Robbie finally caught me. He swam from the bottom of the pool and came up and grabbed be. Of course the first thing that he grabbed was my boner...here it comes.

We surface and we both were laughing. He said don't worry, I've got one too.

It feels great doesn't it? Robbie asked.

Yeah. I love the feeling of the water washing over my body. It feels so different and so free.

Robbie said yeah it really makes your boner hard.

Uncle John and Dad were sitting at a table at the other end of the pool having a drink. John called to us and told us it was getting late and we needed to get to bed. Robbie tried to plead for more time, but his Dad was firm.

We swam to the shallow end of the pool and I looked at Robbie suddenly in a panic. I leaned over close and asked how are we suppose to get out of the pool with these boners.

Robbie said not to worry that his Dad didn't care. I wasn't so sure about my Dad. As we got out John and Dad walked over to us.

John said see what I mean as he took hold of Robbie's boner. He has a nice bush coming in and he is firing live ammunition.

Dad said, no shit. He is becoming a young man.

John looked at me and took hold of my boner. It was the first time anyone had ever touched my boner. I caught my breath. It felt so good to be touched...better than how the skinny dipping felt.

John said look at Josh. He is starting to get a few pubes too. It won't be long for him.

Uncle John slapped us both on the ass playfully and told us to get to bed. We went inside. Robbie got us something to drink and a snack. We took the snack to his room. When we walked in his room I thought about our clothes outside.

Robbie said not to worry...our Dads will get them. As he was standing there facing me I got a real good look at what his Dad was talking about. I didn't know what all of that meant. I sure wanted to find out. His dick looked so cool with all of that hair.

He said we should hurry up and climb in bed and turn off the light. His room was above the swimming pool. Since it was a cool evening, Robbie had the windows open. I could hear John say to Dad, They are tired and will go to sleep quickly and then we can have some fun. It has been a long time. You want to go for a swim?

Dad said that sounded great. I could hear them talking about our clothes and theirs. And then someone dove in.

I asked Robbie what his Dad was talking about earlier...you know about the live ammunition.

Robbie said he just means that I can make sperm.

Huh? I said. What's that?

It is the stuff that makes babies.

I told him he was crazy that girls have babies.

Robbie said you REALLY don't get this stuff do you?

I said no. I guess I am just stupid.

Robbie said no. You are not stupid. You can't help it that no one ever taught you about reproduction and sexuality. Would you like for me to teach you?

Yeah...that would be cool.

Robbie started slow with the basics of reproduction. He was doing a pretty good job until he got to the part about the penis planting a seed in the woman.

Whoa...how does that work, I asked.

Robbie said that the guy puts his boner between a girls legs and shoots the seed.

That didn't help me much in terms of being able to visualize exactly how that worked...but it sure made my boner hard to think about it. I asked him more about how it worked.

Robbie explained about the vagina and as he was describing how it worked, he simulated a vagina with his fist and slid it over my penis. I gasped. It felt awesome. I told him how good it felt. He said that the real thing was 10 times better.

He told me all of this while he still had his fist around my boner. I wondered about that but it felt too good to even mention it.

Robbie told me that he would hold his hand still and I should slide my penis in and out. I did and it felt even better. He took hold of my penis and explained how the rim or corona slides along ridges in the vagina. He told me that the vagina is slick, warm and hugs the penis tight.

Again I wondered how he knew so much, but was afraid to ask. Robbie asked me if I wanted to do it for him. He showed me how to make a fist around his cock. He started to slide his penis in and out. He told me how good it felt and that he was getting close.

I had no idea what that meant, but again my boner was like steel. Robbie was kind of moaning and grunting as he thrust his boner in my fist. I thought I felt something that was a little wet. I hoped he hadn't peed on me.

Robbie started breathing fast and thrusting faster...he said here it comes.

I still had no idea what was coming until my hand and stomach and boner were all wet.

I said whoa dude what did you do? Did you pee on me?

No it is not pee. It's sperm...the seed that makes babies.

Wow I've got to see this. Robbie reached over and got a flashlight out of the table and shined it around so that I could see the sperm.

Wow that is really cool...messy but cool.

Robbie told me what it felt like when the sperm came out. I could not imagine anything that could feel that good. I asked him if he could help me do it. He said we can try. I think you can get the feeling but you probably can't make sperm yet.

He told me to lie on my back and he reached over and started to stroke my penis. It felt awesome. He said it would take me longer to climax than it did him. He stroked me for a long time. I was beginning to think nothing was going to happen. I didn't think much about it. I loved the feeling of Robbie stroking my cock.

Then things started to change. I felt this tension building up...kind of all over...but mostly in my tummy. It didn't matter to me because the stroking felt so much better than anything that I had felt in my life. And then the tension or pressure started to really increase. It was kind of scary. I wanted Robbie to slow down or stop. I didn't say anything at first...and then I had to say something.

Robbie...you've got to stop...I feel like I am going to explode...this can't be good.

Robbie kept going and said not to worry. He thought the same thing the first time. I was wiggling around and breathing fast. It just kept building until it released. My body just shook with pleasure for a few moments.

What was that I asked?

Robbie said it was an orgasm. He said I had dry ones like you just had for about 6 months and then I started shooting cum...you know sperm...guys call it cum.

Wow that felt so cool.

Robbie said I will teach you a lot of cool stuff, but we've got to go to sleep. We'll talk more tomorrow.

Robbie hugged me and I felt his hard cock against me and mine was against him. It felt really good and I put my arms around him and would not let him go. He leaned over and gave me a kiss on the lips. I was shocked at first that a guy would kiss me. It felt good so I waited a moment and kissed him back.

We held each other and in a few minutes I felt him go to sleep. I was too excited to sleep. I could hear Dad and John in the pool. They were talking kind of softly but I could hear everything they were saying perfectly.

John said yeah we came home and found Scott and his girlfriend naked under the piano. Scott was humping her very fast when we walked in. We were too shocked to say anything and so while we were watching both of them came to a climax. That was when Lacy started screaming at them to stop. Scott just humped her harder and faster. You know what it is like when you start an orgasm...you just can't stop. Scott finished and he pulled out. His penis was covered with everything but a rubber.

Dad said, oh shit that could be a problem.

John said yeah it could because we figured out she was in the middle of her cycle.

What did you mean by his penis was covered with everything but a rubber?

John said, when Scott pulled out he was dripping his own cum and his penis was bloody. She was a virgin.

What did you do? Dad asked.

It was such an intense scene, I came in my pants without touching my cock. So now my pants have a big wet spot. Lacy saw some cum come through my pants and the huge boner I had. She kind of stepped in front of me to help hide my situation. She told them to get dressed. I could see a little bloody sperm running down the girl's leg. I wanted to get down and lick it off so bad and then try and eat all of my son's cum out of her pussy.

She is really a hot looking girl. I loved standing there watching her get dressed. She has really cute boobs. They are nice and firm. Her nipples were rock hard. I wanted to suck them.

So what did you do. Scott and I took her home.

When we came back Scott went to his room to get ready for bed. Lacy was already in bed. She wanted me to go get Scott so she could talk to him.

I went to Scott's room and he was in bed already. I told him that his mother wanted to talk to him. He got out of bed naked and started to put on clothes. I told him it was too late for that everyone had seen him naked.

I just like looking at his tight 16 year old body. He is a great looking kid. He is hung like you. He must be almost 7 inches and he just turned 16.

Scott walked in with me. Lacy pulled the covers up over her breasts. She was naked too. She patted the edge of the bed and told Scott to sit down. As she did the covers fell off one breast. Scott got a good look at Lacy's boob. That was all it took for Scott. He started to get hard again.

Man this is a hot story, Dad said. I am so hard.

John said me too. Let me finish the story and we will take care of each other like always.

Lacy wanted to know why Scott was being so foolish. Scott asked what she meant.

She told him that he should not be having unprotected sex. Lacy looked at Scott, her eyes wandering to his erection. She asked him if the girl was a virgin.

Scott said yeah she is or was a virgin. He said that his friend Tommy said it was really cool to do it with a virgin.

Lacy asked if the two of them planned to have him cum in her.

Scott shook his head no. That was my idea he said. I was riding her and thinking about my sperm and how potent they are. I started thinking how cool it would be to shoot my

stuff inside her. As I got closer and knew I should pull out, I couldn't do it. I needed to spray my cum in her.

Do you know when she had her last period?

Yeah Scott said. Her period started 2 weeks ago tonight. We had a date and we have been talking about having sex for a while. We were going to do it two weeks ago. This was the first chance we have had to be alone.

Lacy said, oh great you had sex when she is most fertile. Your sperm is probably getting her pregnant right now.

Scott's boner began to twitch and he couldn't help himself his cock was leaking a lot of precum.

Lacy said I think the idea of getting her pregnant excites you.

Scott looked at her and answered honestly, yeah I think it would be really cool to get her pregnant. He told her that Tommy was having sex two or three times a day with his girlfriend. He really wants to get her pregnant.

Oh baby that can be very dangerous. Having a baby can really mess up your life. She put her arms out to hold him. As she did she let go of the sheets.

John said that Lacy held Scott for a long time and stroked his back. She told him to crawl in bed with them just like the old days when he was little. She held the covers back and Scott could see that she was completely naked.

John said I could not believe it. Talking about getting the girl pregnant must have really turned Lacy on. When I looked over she had not only invited our naked and erect 16 year old son into bed with us. When she pulled back the covers to let him in she spread her legs and the only place for him to crawl into bed with us was to kneel between her open legs.

Scott was just staring at his mother labia that were spread wide open. The boy's cock was drooling precum. He knelt on the bed between her legs. Lacy reached up and ran her hands along his thighs. She pulled him toward her. There was only one way this was going to end. And that was with Scott's hard cock in his Mothers pussy. In moments Scott had penetrated his mother.

I went to the bathroom and got the tube of lube. I greased up my boner on the way back and kept some on my finger. I stood over them and spread Scott's cheeks and lubed him good. I put a couple of fingers in him and stretched him a bit and then got behind him and in one motion fucked my boy to the hilt.

He was so intent on fucking his Mother, he had no idea that I was going to fuck him. We were all three pumping in unison. It did not take long. Lacy was so turned on by being fucked by Scott that she was the first one to cum. Scott and I followed quickly. Scott shot rope after rope of his seed deep in his Mother. He wondered if there was any chance he could get his own mother pregnant.

I shot my load deep in Scott's core. I kept banging his prostate which shot more of his cum into his Mother's waiting womb. I wondered if I was helping my son inseminate his mother. That made me pound his ass even harder as I filled him up with the seed that made him.

Dad said I have to have your ass now. And I listened as they got out of the pool. On the picnic table, John said.

In moments I heard my father and uncle grunting as my Father fucked my uncle. My father quickly cried out that he was cumming and now I knew what that meant. I had been stroking my cock as I listened to the story. When Dad came I had another dry orgasm too. It shook my whole body with pleasure.

More to come....
